

Te Waotu PRIDE Awards programme

Persistence, Responsibility, Independence, Drive, Excellence

Name:

Year:

Platinum

Information for parents

Children can make an immediate start. Ten successful challenges will gain a platinum medal.

Teachers will check evidence for each activity at the **completion of each one**. If the challenge has not met the criteria, the child will be allowed another week to make improvements before presenting it again to the teacher.

It is recommended that at least **three challenges be completed per term**. Children who have not completed at least six challenges by the beginning of the third term may not be eligible for an award at the end of the year.

At least **one challenge from each section** must be completed over the course of the year. Children who do not meet this requirement will not be eligible for an award at the end of the year.

Any 'design your own' challenges must have teacher approval **before** they are started. Once approved, this needs to be written up in the box.

Tasks must be completed by the child. Parental support is encouraged as long as it does not interfere with the child's ownership of the activity.

Presentation of tasks

Options for the presentation of tasks:

- A. Digital presentation using an app. All pages must be checked for spelling errors, accuracy and sense by a parent before publishing.
- B. A clear file containing all task evidence. It is expected that most tasks will be typed up but in the case of handwritten evidence, this must be of high quality with no errors. All work must make sense. The folder must be of a very high standard with headings for each task (see the example below).

Whichever option is chosen **all** tasks must be recorded clearly before writing up evidence.

For example: **PRIDE in Academic Excellence**
 Task A-1: Write and illustrate a story
